## BEYOND RESISTANCE ★ BEYOND CAPITAL

The last few years have seen a series of crises for our rulers. Millions of us are angry at the ongoing economic crisis, the scandalous behaviour of 'our' MPs and the endless wars in the Middle East.

All of these crises are part and parcel of capitalist rule, but rarely is this system itself challenged. We are constantly told there is no alternative to capitalism. Every day at work and in our communities we live out the same capitalist order, the same hierarchies, the same alienation.

But the spectre of communism has not gone away. The idea of a society fit for human beings lives on. It is an idea raised every time workers demand the living standards we need, not what our rulers are prepared to give us; whenever we reject the state's oppression and interference in our lives; and whenever we stand up to sexism, homophobia and anti-immigrant hysteria.

We need to build on these acts of resistance. But that is not enough. Our movement needs ideas. We need a clear vision of a communist alternative to the capitalist order, and how we can make it happen.

That is why The Commune is hosting a summer school on Saturday 19th June to discuss what we should be fighting for and how we should fight for it. Join the debate.
